Effective July 6, 2018, the U.S. Trade Representative imposed additional 25 percent duties on goods of China classified in 818 eight-digit subheadings of the Harmonized Tariff Schedule of the United States (HTSUS), with an approximate annual trade value of \$34 billion. *See* 83 FR 28710. The U.S. Trade Representative's determination included a decision to establish a process by which U.S. stakeholders could request exclusion of particular products classified within an eight-digit HTSUS subheading covered by the \$34 billion action from the additional duties. The U.S. Trade

Representative issued a notice setting out the process for the product exclusions and opened a public docket. *See* 83 FR 32181 (July 11 notice).

Under the July 11 notice, requests for exclusion had to identify the product subject to the request in terms of the physical characteristics that distinguish the product from other products within the relevant eight-digit subheading covered by the \$34 billion action. Requestors also had to provide the ten-digit subheading of the HTSUS most applicable to the particular product requested for exclusion, and could submit information on the ability of U.S. Customs and Border Protection to administer the requested exclusion. Requestors were asked to provide the quantity and value of the Chinese-origin product that the requestor purchased in the last three years. With regard to the rationale for the requested exclusion, requests had to address the following factors:

- Whether the particular product is available only from China and, specifically, whether the particular product and/or a comparable product is available from sources in the United States and/or third countries.
- Whether the imposition of additional duties on the particular product would cause severe economic harm to the requestor or other U.S. interests.
- Whether the particular product is strategically important or related to “Made in China 2025” or other Chinese industrial programs.

The July 11 notice stated that the U.S. Trade Representative would take into account whether an exclusion would undermine the objective of the Section 301 investigation.

The July 11 notice required submission of requests for exclusion from the \$34 billion action no later than October 9, 2018, and noted that the U.S. Trade Representative periodically would announce decisions. In December 2018, the U.S. Trade

Representative granted an initial set of exclusion requests. *See* 83 FR 67463. The U.S. Trade Representative announced additional exclusion determinations in March, April, May, June, July, September, October, and December 2019, and February, May, June, and July 2020. *See* 84 FR 11152; 84 FR 16310; 84 FR 21389; 84 FR 25895; 84 FR 32821; 84 FR 49564; 84 FR 52567; 84 FR 69016; 85 FR 7816; 85 FR 28692; 85 FR 35158; and 85 FR 42970.

The U.S. Trade Representative will continue to issue determinations on a periodic basis as needed.
